What some of our clients say about Happiness at Home:

"Taking the time for a personal approach to our mom's needs and our families concerns meant that she was matched with the perfect caregiver and we felt at ease when we couldn't be there ourselves. Your caregiver was great with Mom, taking her out for drives or just having tea and "talk time" which is just what she wanted most of all. I also liked I was able to talk with her about how things were going or that she would call with any concerns— an open dialogue is so important."

—Melinda M. and Denise C.

"Happiness at Home Healthcare helped me and looked after my husband for 2 ½ years. We had excellent care and became very close to our caregiver. She was like family."

—Leona B.

"My mother heard about Happiness at Home from some contacts, and requested they assist her in Pre-op surgery procedures, the night before her hip surgery. Because we are out of town, we had to stay overnight at a hotel. Your staff were prompt in meeting us at our hotel, in the evening. The caregiver gave excellent, sensitive care to my mother, and tucked her into bed. A sincere and heartfelt thank you to your team, for their kind, timely, excellent service. Frank, Director of Client Care, was excellent in following up with us and was prepared to offer extra services as we needed them."

—Cathy P.

Connecting and Nurturing Seniors at Home

Clients we *Serve*

Serving the Fraser Valley area, we're devoted to seniors and the chronically disabled who aren't ready to leave their home for an institutional setting or who live with relatives, but because of illness or chronic conditions need support to remain at home.

Caring for a client often involves family, so we play a role in providing a respite for the primary family caregiver, i.e., a wife caring for a husband or a daughter/son caring for their parents.

Constant caregiving can bring great stress, because the caregiver's focus is centered on the one needing care. Very often we see that when we give relief from daily routines, allowing the family caregivers more time for themselves, the relationship strengthens.

Our *Caregivers*

Our caregivers are well trained, highly qualified and carefully selected individuals who are thoroughly screened, bonded and insured. Most importantly, our priority is to have caregivers who are completely trustworthy and extraordinarily caring of others.

Our caring service allows our elderly clients to maintain as much independence as possible by providing the appropriate in-home assistance and companionship, lifting the spirits of both the elderly and the family caregivers as well.

How to get *Started*

We will meet with you and your family and jointly determine the scope of care by conducting an in-depth assessment of your (or your loved one's) lifestyle and medical conditions, then evaluate the kind of assistance that is needed.

During the meeting, we explain fully the services available, answer any additional questions you may have, and help with the important care decisions faced by a family with a loved one in need.

Issues covered include:

- Matching the appropriate caregivers
- Daily routines
- Health and medication
- Emergency response
- Nutritional issues
- Home cleaning issues
- Transportation
- Costs of services
